

IMPORTANT UPDATE: COVID-19

As the Coronavirus (COVID-19) situation continues to evolve, our full focus remains providing the best client service offering whilst protecting the health and wellbeing of our team members and their families.

HTA has continued to comply with directives and advices of the Chief Medical Officer and authorities both at a Federal and Local Government level.

In order to protect the health and safety of our team, all HTA team members are currently working from home and our office is closed.

We remain fully operational and we are business as usual in all aspects. We advise that face to face client meetings are no longer occurring and we will be conducting client meetings via video conference call (Microsoft Teams or Zoom) and via phone where necessary.

HTA will continue to follow the directives of the authorities so that the precautionary measures we have introduced minimise the risk to our team members and clients.

Whilst it is disappointing not to be able to meet in person and welcome you to our new office in South Yarra, the health and wellbeing of our community is our main priority and we know that life will return to a level of normality in the future.

If you have any questions or need any assistance at all, please feel free to reach out to any of your regular contacts at HTA.
