

IMPORTANT UPDATE: COVID-19

As the COVID-19 situation continues, our focus still remains providing the best client service offering, whilst protecting the health and wellbeing of our team members and their families.

HTA has continued to comply with directives and advice from the Chief Medical Officer and authorities both at a Federal and Local Government level.

In order to protect the health and safety of our team, all HTA team members are currently splitting their time between working from home and at the office.

We remain fully operational and are business as usual in all aspects. We advise that face to face client meetings are able to be held at our South Yarra office subject to density limits within the space, with our recommendation being to have client meetings held via video conference (Microsoft Teams or Zoom), and via phone where appropriate.

HTA will continue to follow the directives of the authorities so that the precautionary measures we have introduced minimise the risk to our team members and clients.

It is exciting that we are now able to welcome our team and clients back to the office in a reduced capacity, and we hope that it won't be long until we are all working from South Yarra in a COVID normal setting.

If you have any questions or need any assistance at all, please feel free to reach out to any of your regular contacts at HTA.
